

Directions to Update your Chromebook

Manually Updating Chrome OS

1. Once logged in as a user, go to the three vertical dots in the upper right corner (of the Chrome menu bar)
2. Click, and go to Settings
3. Click on About chrome
This should show you what Chrome OS it is running and may present an update button. If not, then Click on about chrome OS
4. Click an update button
5. Once the update is done loading, a Restart is required and a button to restart usually appears
Depending on how far back the OS may be, this might need to be done a couple of times.
