

The Public Schools of Brookline
School Committee Meeting of Thursday, November 14, 2019
Superintendent Report
Ben Lummis
Interim Superintendent of Schools

Bee-lievers in Change honored as Keynote Speakers

For their work in leading the Coolidge Corner School Naming Process, the Bee-lievers in Change student committee was chosen to deliver the keynote address at the annual School Reform Initiative (SRI) meeting on November 7. Hosted at the Royal Sonesta Hotel in Cambridge, over 350 educators from around the country heard our students speak about their experiences engaging the Brookline community in this important process. Thunderous applause and a standing ovation showered the students as they finished their presentation. Coolidge Corner School principal Ms. Buller and Vice Principal Mr. Ola were in awe of the confidence and strength the students exhibited as they presented their impactful work. Congratulations to the students on this well-deserved recognition!

Gene Thompson-Grove, founding board member of SRI and former Director of Professional Development for the PSB, who helped to organize the Bee-lievers participation, was effusive in her praise of both the students and of Principal Buller. Ms. Thompson-Grove wrote, in part, the students “inspired and energized, provoked and challenged us all last Thursday ... there was a palpable buzz about them and what they said for the rest of the day, and people pulled the thread of student voice through the entire three days, as we had hoped! Your incredible leadership was also evident - and was not lost on anyone. Many people spoke in reflective learning groups about what it really takes for adult educators to center students -- to open up space for their voices and to guide and support them as they learn to take collective action on what they believe -- without taking over.”

DESE Audit of Circuit Breaker Claims

The Commonwealth of Massachusetts Special Education Circuit Breaker Program recently completed an audit of PSB’s circuit breaker claims. The Circuit Breaker Program is one of the major funding sources for the special education budget. The program reimburses local school districts for a portion of their special education costs above a certain threshold for educating severely high-need special education students.

Lynda Kirby, Office Manager in the Office of Student Services, has been overseeing the Circuit Breaker program for 16 years. Her meticulous work combing through many student IEPs (individualized education plans) has resulted in maximized reimbursements to the district. The total reimbursement we have received over the last 16 years through this program is \$29 million. The monies that are reimbursed to us go back into funding services and programs for students in special education.

The five members of the DESE team who visited Brookline this week to complete the audit shared their results with me, Deputy Superintendent Mary Ellen Normen, Deputy Superintendent Casey Ngo-Miller, and Ms. Kirby. The team commented favorably on the number of students who are educated in-district who qualify for circuit breaker reimbursement, noting that it was one of the highest numbers in the state. They also commended us for the low number of students in out-of-district placements as compared to other districts. The DESE team commended Brookline for our sustained commitment to educating our high needs special education students in our own school district.

I would like to extend a huge thank you to Ms. Kirby for her meticulous and thorough work in ensuring maximized funding from the state so that we can continue to run high quality programs and provide excellent services to our students.

Update on Paraprofessional Hiring and Support

As you know, paraprofessionals play an important role in classrooms across the district. Every year, the Office of Human Resources works hard to recruit and hire talented individuals to fill these positions. At this time, I want to take a moment to provide you with an update on paraprofessional hiring for the 2019-2020 school year:

- We have a total of 337.5 classroom-based paraprofessional positions.
 - As of today, we have 13.5 vacancies in these positions (4%).
- Out of the total number of paraprofessional positions, 102 of them serve in district-wide special education programs.
 - As of today, we have 5 vacancies in these positions (5%).

On a related note, for the second year in a row the Office of Student Services is offering differentiated professional development for our paraprofessionals over the course of eight early release days scheduled for grades k-12. We have partnered with Mass Partnerships for Youth, as well as our own in-district professionals, to provide topics relevant to paraprofessionals' daily work with students. Topics range from **"Para 101: How to be a Fantastic Paraprofessional"**, led by special education teachers in the district who were formerly paraprofessionals, to **"The Impact of Sensory Processing on Classroom Learning and Behavior"**, led by two occupational therapists from the district. Today, Mass Partnerships for Youth presented on the topics of **Cultural Proficiency**, and **Creating Classroom Interventions for Dysregulated Students**. On each date, paras can choose which sessions are of most interest and relevance to their work.

Many thanks to the Directors of Special Education - Nadene Moll, Melissa Devine, and Emily Frank - for designing and coordinating these efforts.

Official 2019-2020 Enrollment Figures

The Department of Elementary and Secondary Education has approved our annual October SIMS submission and so I am able to share the attached official enrollment summary with you. As you know, our enrollment is fluid over the course of the school year: our school population is highly mobile, and families move in and out of the district on a regular basis. However, the official October 1 numbers are important, especially for year-to-year comparisons.

Please see attached. A few notes from the chart:

- Our official, October 1 kindergarten registration is 600 students.
- The total number of elementary (K-8) and high school students is 7,525.
 - Last year, the total number of elementary and high school students was 7,604.
- The official high school enrollment is 2,083 students.
 - Last year, the total high school enrollment was 2,101.

Brookline China Exchange Program

As you may, the Brookline China Exchange Program (CHEX) will celebrate its 20th anniversary this year. Festivities to mark the occasion are planned for Friday, January 10 and Saturday, January 11, 2020 at Brookline High School. Head of School Anthony Meyer, Deputy Superintendent Nicole Gittens, School Committee member Barbara Scotto and I met with the CHEX Steering Committee earlier this week to discuss the plans for the anniversary. We will be sure to keep you informed as the details are finalized.

Meeting with the Massachusetts School Building Authority

Earlier this week, our team - including Select Board member Ben Franco, Town Administrator Mel Kleckner, Tony Guigli from the Building Department, School Committee member Helen Charlupski, Erin Cooley and I - met with MSBA staff at their offices in Boston to discuss preliminary enrollment projections for the Pierce School building project.

In two weeks, the MSBA will send us an official letter with the projected enrollment number, based on their methodology. We will need to review, approve and sign that letter. Once that letter is signed we will enter into a Feasibility Study Agreement with the MSBA. The MSBA board meets on February 13, at which time we hope they invite our project into the Feasibility Study Phase.

Once the MSBA Board has invited us into the Feasibility Study Phase, the Owner's Project Manager (OPM) and Designer Selection processes can begin. It is expected that it will take about 6-8 months from the start of the OPM/Designer Selection processes to the start of work on the feasibility study.

We will continue to keep you informed as these important plans proceed.

Pierce School Listening Sessions

As part of the planning work for the Pierce School construction project, Principal Lesley Ryan Miller has scheduled three listening sessions at the school for parents and guardians. These sessions are designed to allow participants to share their ideas and suggestions, and ask questions about the project.

The listening sessions are scheduled for:

Friday, November 15 at 7:45am

Tuesday, November 19 at 1:30pm

Thursday, November 21 at 6:00pm

Meetings with Parents and Guardians

In my continuing effort to meet with parents at every school, I had the pleasure of addressing Coolidge Corner School parents on November 1 at a coffee hosted by the PTO. We spoke about the school renaming process, the Superintendent search process, and the work we are doing this year with our kindergarten teachers. My next parent coffee is Friday, December 6 at Pierce School.
