

Welcome to 3B!

Hello 3rd graders! Welcome to 3B. I am Mrs. Bordieri (Mrs. B for short) and I am excited to meet you. We will have a great time together this year learning, making friends and having fun. Some of the interesting things we will learn about are Massachusetts history, the engineering design process, cursive, fractions and narrative writing...just to name a few!

I hope you are having a wonderful summer. I've had a great time traveling to Louisiana to visit my family and also going on an amazing Caribbean cruise! I'll be sure to have some stories and pictures to share with you. I hope you come ready to share how you've spent your summer, too. I've also been reading lots of books and hope you've been doing the same!

On the first day of school, all you need to bring is a snack, water bottle and a positive attitude! See you soon in 3B, room 229!

Mrs. Bordieri
