

Problem of the Week #11

Target Score

Mindy scored exactly 100 on this dartboard.

The outer white circle is worth 16 points

The black circle is worth 17 points.

The blue circle is worth 24 points.

The red circle is worth 39 points.

The center yellow circle is worth 40 points.

Note:

More than one dart can land on a color.

What numbers did Mindy's darts land on to make 100?

Show your work and justify your thinking.
