

Problem of the Week #12

How Old Am I?

Here are some clues about my age.

- Both my father's age and mine are 2-digit numbers.
- If you reverse the order of the digits of my father's age, you get my age.
- My father is 27 years older than I am.

How old am I?

Show your work and justify your thinking.

Name: _____ Class: _____

(First and last name, please. Due 6/3/2021)
