

Problem of the Week # 14

100 Grapes

On Monday, Angela ate some grapes.

On Tuesday, she ate 6 more grapes than she had eaten on Monday.

On Wednesday, she ate 6 more grapes than she had eaten on Tuesday.

On Thursday, she ate 6 more grapes than she had eaten on Wednesday.

On Friday, she ate 6 more grapes than she had eaten on Thursday.

And by the end of Friday, she had eaten 100 grapes in total.

How many grapes did Angela eat on **Monday**?
