

**Problem of the Week #16:
Pierce Book Fair**

Anna's mom gave her 15 coins to spend at the book fair. All the coins are nickels and dimes. They total \$1.35.

How many of each coin does Anna have?

Challenge:

Royce has \$1.30 in dimes and quarters to spend at the book fair. He has one-fourth as many quarters as dimes.

How many of each coin does Royce have?

Show your thinking using pictures, words, or numbers.
