

Problem of the Week #20: 30 Grapes

On Monday, Andrew ate some grapes. On Tuesday, he ate 2 more grapes than what he ate on Monday. On Wednesday, he ate 2 more grapes than what he ate on Tuesday. Each day of that week he ate 2 more grapes than what he ate the day before. By the end of Friday, he had eaten 30 grapes in total.

How many grapes did Andrew eat on Monday?
