

## Problem of the Week #2: Playing Fetch

Robbie loves playing fetch with his dog, Spencer. Spencer starts by sitting beside Robbie. After Robbie throws the ball, Spencer runs to get the ball, and he brings it back. Robbie throws the ball 3 times.

On the 1<sup>st</sup> throw, Robbie throws the ball 8 meters.

On the 2<sup>nd</sup> throw, Robbie throws the ball twice as far.

On the 3<sup>rd</sup> throw, Robbie throws the ball 5 meters less than the second throw.

How far does Spencer run in total?
