

Problem of the Week # 7

Postage Possibilities

Corey has several letters to mail. Corey needs to stamp each envelope with a total of exactly 55 cents in stamps. *Corey can use any number of stamps to make 55.*

If Corey has:
52-cent stamps
20-cent stamps
3-cent stamps
15-cent stamps
32-cent stamps

What combinations of stamps can Corey use to make 55 cents?
Share all the combinations you can find.
