# Problem of the Week #9
100th Day Potato Challenge

A Farmer grows 100 pounds of potatoes. The farmer sells them to a grocer who will divide them into 5-pound bags and 2-pound bags.

K-2:   What is one combination of bags the grocer could make using all 100 pounds of potatoes?

Gr 3+:   Can you list all the possible combinations?

Show your work using pictures, numbers or symbols.

Example:
    The grocer could have _____ 5-pound bags and _____ 2-pound bags.

Name:_____Class:_____
        First and last name, please   **Due: 1/24/2018 (Thursday)**
