CULTURE OF COLLABORATION

An extraordinary education requires the coordinated efforts of many. Towards this end, we strive to solicit and foster collaboration between and among educators, administrators, community organizations, government institutions, private sector, and other interested parties, with the best interest of students serving as our guiding principle.

Core Values

COMMITMENT TO EQUITY

We are committed to eliminating barriers to educational achievement in our schools. To this end, we create policies and practices so that every student, regardless of race, ethnicity, nationality, religion, gender, gender identity, sexual orientation, disability, or socioeconomic status, experiences a safe and welcoming environment in our schools, and receives the resources and support they need to take fullest advantage of the opportunities a Brookline education offers. We recognize the existence of great disparities in private means among PSB students, and will do everything possible to ensure that private resources do not determine student outcomes.

ETHIC OF WELLNESS

For our students and the world around them to thrive, our schools must contribute to an ethic of wellness. PSB will attend to the social and emotional development of its students, so that they may flourish personally, build positive relationships, and contribute to a more caring and just world.
