

Exterior Cameras at BHS

Jan 22, 2025

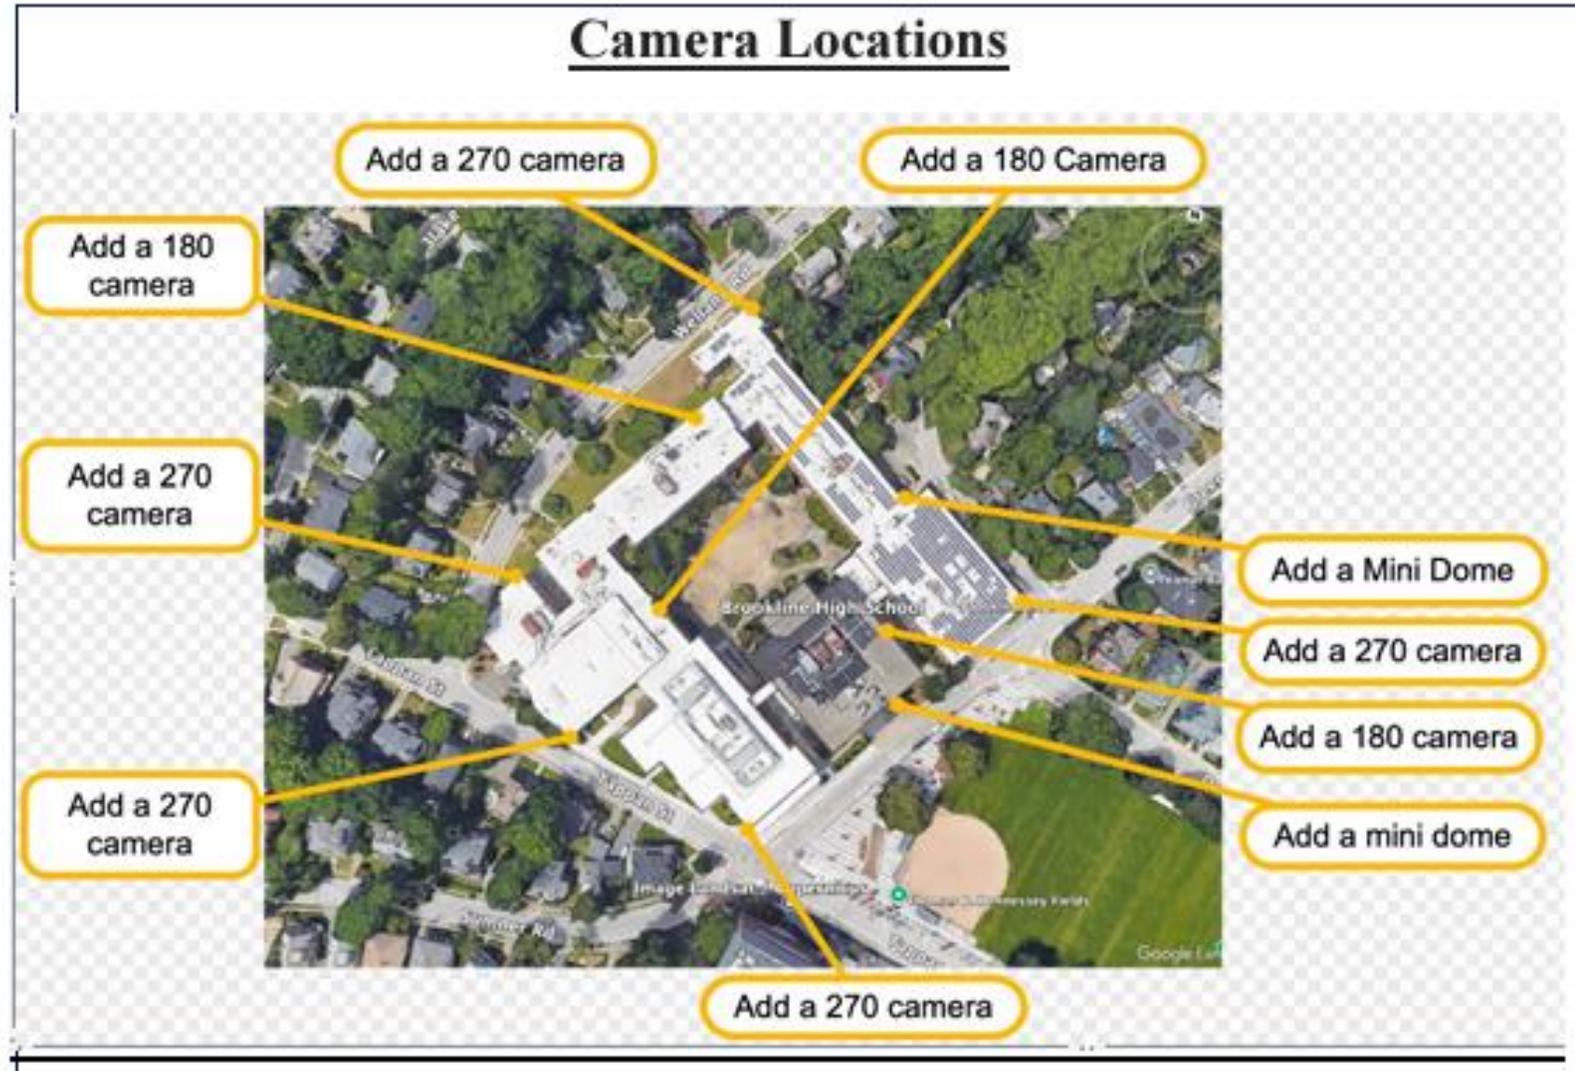

Why?

From the BHS Expansion and Renovation Education Plan Feb 2017:

The Brookline High School should include a security system that includes video cameras... Such a system would have to be elaborate as the numerous right angles and corners of the exterior of the building present many visual impediments to an effective monitoring system. ...A monitoring system for camera review should be located in Main Office or Assistant Head of School's office.

115 Locations

Tappan St. and 22 Locations
