TO: School Finance and Capital Subcommittee

Bella Wong, Superintendent of Schools

FROM: Susan Givens, Ed.D., Deputy Superintendent, Office of Administration and Finance

DATE: November 13, 2025

RE: FY26 Financial Report, Quarter 1

This report includes three documents that provide a snapshot of the financial position of PSB through the end of the first quarter of the fiscal year. The first two reports provide insight into the status of the general fund operating budget. The third report provides information on special revenue funds that support the financial plan for our educational programs. The financial reports include footnotes to explain variances. The narrative below provides a summary of highlights for the quarter along with areas that are being monitored closely.

Overall spending is on target with the financial plan approved for the year. At the end of this quarter, \$4,339,575 is left unencumbered representing 3.04% of the general fund operating budget. The unencumbered balance is similar to last year's balance at this time.

General Fund Operating Budget - Salary Highlights

All known salary obligations are encumbered. At this time, salaries are running under budget by \$437,411 or .35%. This variance is primarily due to the conscientious efforts of administrators who hired staff at or below the budget placeholder salary during the hiring season.

Eight (8) FTE in new positions were added during the first quarter; 1.8 were funded using extra sections and 6.2 were funded by eliminating/realigning other positions. This leaves 3.2 professional staff sections plus 2 paraprofessional FTE available to address any student needs that arise over the remainder of the school year. It is important to note that the need for additional support increases as the year progresses and therefore, the remaining FTE will likely be used by the end of the year.

The summer ESY program salaries were over budget by \$29,908; however, the Project Discovery summer program salaries were under budget by \$38,140. Though the ESY program is funded by the IDEA grant, any costs that exceed a grant allocation must be funded via the operating budget. This deficit is mitigated by the lower cost of Project Discovery.

The Title I grant allocation this year was higher than anticipated allowing us to shift some staff from the operating budget to the grant (\$105,355). This windfall was offset by literacy curriculum and professional development costs that did not qualify for funding through the IDEA grant (\$100,000) as originally planned when the general fund budget was finalized. The literacy costs from the IDEA grant that moved to the general fund are offset by the savings acquired by shifting some of the general fund salaries to the Title I grant.

General Fund Operating Budget - Non Salary Highlights

Non-salary expenses represent a very small portion of the overall operating budget; 12.5% (\$17,780,793). The majority of these expenses (\$9,634,606 or 54%) fall into two categories; special education tuition and transportation. The remaining non salary budgets fund all other expenses including supplies, services, resources, field trips, etc. for the classroom, professional development, mileage reimbursement and LTD insurance for staff, and operational expenses such as licenses for standard administrative tools (Blackboard, ASPEN, Zoom, etc.), banking fees, attorney fees, etc. The largest portion of our unencumbered balance (\$3,902,166) is in non-salary expenses (21.88%). These expenses and encumbrances increase as the year progresses as materials and services are needed.

The district is obligated to provide staff opportunities to earn PDPs to maintain their DESE licensure and to ensure all staff receive mandatory training. Funds for Education/Training/Conferences that support these activities were cut substantially during the budget process. Some essential staff training and curriculum development work was inadvertently cut from the budget. The deficit of \$39,566 in this area represents the cost for this work.

Though transportation appears slightly under budget in this report (\$36,320), the elementary shuttle that was added in September to reduce the length of the route is not encumbered (\$35,000). Also, there is a significant increase in the McKenny Vento student population. We are evaluating the possibility of cost sharing some of these expenses with other districts to help mitigate the impact on our transportation budget. The total impact of this will be captured in the Q2 report.

The copier leases which are an OTL expense but managed by the operations department did not get included in either office's budget. The leases are \$240,000 and obviously must be funded. The positive variance in the salary accounts will be transferred to pay for the copier leases at the close of the year.

Special Revenue Funds

The special revenue fund report provides insight into financial activity related to the grants and revolving funds that support our programs. As mentioned in the FY25 Q4 report, twenty one (21) prior year grants have been closed which means that Federal grant spending is now current. The three FY24 grants (Title I, Title III, and IDEA) ended August 30th and final reports are due this month. All FY26 Federal grants were submitted and approved prior to the start of the fiscal year and all related expenses are aligned accordingly.

There are two noteworthy highlights in the revolving fund area. The BA&CE program closed in deficit (est. \$30,531) and the final expenses will need to be funded through the operating budget. On the brighter side, the District received \$607,145 in unanticipated Circuit Breaker revenue in July when the state increased the reimbursement rate for FY25 transportation. This

additional revenue will offset a portion of the FY27 CB revenue loss that was leveraged to fund the structural deficit this year.

Finally, to improve the speed and accuracy of posting revenue for the school department, the Town has requested that this function be shifted from the Town to the School finance department. We are looking closely at how to restructure the department to accommodate this request.

Summary

In summary, areas where there are budgetary shortfalls are offset by other areas where we are trending favorably. We received \$607,145 in additional Circuit Breaker (CB) revenue that will help close the CB revenue gap in FY27.

Footnotes

- 1. New position added from extra sections
- 2. All but 2 PT BEEP paras transitioned to FT per MOA with BEU
- 3. Breakage: Difference between budgeted salary for a position and the actual salary. Theses variations occur when a position is temporarily unfilled or the salary of a new hire is different than the salary in the budget.
- 4. Reallocation of an operating expense to a special revenue fund.
- 5. ESY summer program exceeded the IDEA grant allocation for staff wages.
- 6. Literacy program curriculum and professional development shifted from IDEA, CCEIS to operating budget per DESE
- 7. Essential staff training or curriulum development projects inadvertantly cut from the budget.
- 8. Reallocated funds from Superintendent's salary budget to professional services to address culture and climate and other concerns raised in CLA report.
- 9. OTL Summer program wages underbudget
- 10. LOA Coverage
- 11. The elementary shuttle bus that was added to reduce route length of the route is not encumbered (\$35,000)
- 12. Textbooks miscoded to General Supplies line, adjustment underway

Footnotes

- 1. New position added from extra sections
- 2. All but 2 PT BEEP paras transitioned to FT per MOA with BEU
- 3. Breakage: Difference between budgeted salary for a position and the actual salary. Theses variations occur when a position is temporarily unfilled or the salary of a new hire is different than the salary in the budget.
- $4. \ \mbox{Reallocation}$ of an operating expense to a special revenue fund.
- 5. ESY summer program exceeded the IDEA grant allocation for staff wages.
- 6. Literacy program curriculum and professional development shifted from IDEA, CCEIS to operating budget per DESE
- 7. Essential staff training or curriulum development projects inadvertantly cut from the budget.
- 8. Reallocated funds from Superintendent's salary budget to professional services to address culture and climate and other concerns raised in CLA report.
- 9. OTL Summer program wages underbudget
- 10. LOA Coverage
- 11. The elementary shuttle bus that was added to reduce route length of the route is not encumbered (\$35,000)
- 12. Textbooks miscoded to General Supplies line, adjustment underway
