# Exhibit B

**Qualifications & Clarifications** 

# EXHIBIT B Michael Driscoll School J08864.000 ASSUMPTIONS & CLARIFICATIONS

# May 24, 2021

# General Clarifications –

- 1. GMP dated May 24, 2021 includes the documents listed in Exhibit I dated 5/18/21. All other documents and Agreements between the Owner and other parties are excluded.
- 2. This is not a "line-item" GMP. All items except General Conditions (Lump Sum), and Owner Allowances will reconcile to CM Contingency.
- 3. GMP is based upon receipt of an NTP (Notice to Proceed) for construction by the Owner on/or about June 2, 2021 and fully executed GMP by June 30, 2021. Delay in execution or any restrictions to release for construction may result in a change in the GMP Project Schedule in Exhibit H, and /or GMP value.
- 4. Excludes the Preconstruction costs thru 6/1/21 Amendment 4 for a value of \$474,697.
- 5. For the purposes of the GMP document, when "Trade Contractors" are referenced this means both filed sub bids (Trade Contractors) and Subcontractors.
- 6. Issuance of an NTP for construction constitutes acceptance of the Gilbane recommended lowest responsible bidders listed contained within the GMP. The NTP authorizes Gilbane to issue contracts to listed bidders in the GMP. The GMP is based on the listed Trade Contractors' acceptance and execution of a contract to perform the work. Rejection of a bid of a Trade Contractor listed within the GMP by the Owner will require an adjustment to the GMP value to accommodate the next lowest responsible.
- 7. Filed sub bid Trade Contracts were awarded based on the specific scope of work included in their contracts which specifically included only the documents referenced in the specific Specifications Sections owned by these filed sub bidders. Work included on Contract Documents referenced elsewhere are excluded.
- 8. This GMP excludes all Alternates shown in Exhibit G. Acceptance of Alternates will result in a change order. Alternates values are good through June 17, 2021.
- 9. The GMP includes the costs of compliance with all executive orders and government regulations associated with the COVID-19 pandemic through the date of the GMP. In light of the wide-ranging and potentially long-lasting effects posed by the COVID-19 pandemic, including, without limitation, disruption of construction supply chains, labor shortages, and governmental actions, Gilbane reserves its right to assess reasonably unforeseeable impacts on an ongoing basis and to seek an equitable adjustment in the Guaranteed Maximum Price and an extension of the Contract Time as such adjustments become necessary.

- 10. Electronic document control will be utilized on the project for the processing and turnover of all project documents including but not limited to; Submittals, Requests For Information, Punch List, AE Field Reports, Time and Material slips, Drawings, Specifications, Operating Manuals etc. Project management software systems include Procore, CMIC and Textura. Operation Maintenance Manuals & As- builts will be provided as hard copies.
- 11. Liquidated Damages are \$3,000 per day. For the purposes of assessing Liquidated Damages, the enforcement date shall be no sooner than 9/1/23 for the new building. The Liquidated Damages enforcement date field completion shall be no sooner than 9/1/2024.

# 12. Not used

- 13. In all cases, it is understood that the Owner shall be deemed as the generator of the hazardous materials. Contractor shall neither take title to or be deemed the generator of the hazardous material or substance at any time during the abatement, removal, transportation, or disposal. The Owner or his designated representative will sign all Hazardous Materials disposal manifests, Waste Shipping Records, Material Shipping Records or Bills of Lading (when applicable) for the project. Gilbane and Trade Contractors are responsible only for any hazardous materials they bring to the site or releases caused by their negligence or willful misconduct.
- 14. Gilbane and/or the Trade Contractors shall not be held responsible if an Indoor Air Quality (IAQ) test fails as a result of installation of a specified material, approved material, or FF&E, provided the installation conforms to the Contract Documents, and/or manufacturers recommendations, whichever is the higher standard unless the violation is caused by the failure of the HVAC system to properly ventilate.
- 15. Excludes the cost for moving of the building's employees, phone, and data relocations, as well as moving the existing office furnishings and furniture to be salvaged. This includes providing any additional floor, wall, furniture, and equipment protection during the moving of these items as well as any repairs that may be required as a result of damages.
- 16. Excludes all cost and schedule impacts resulting from future changes in law.
- 17. The GMP is based on the CMP/Site Logistics Drawings included in Exhibit J. Any deviations will be a change to the GMP.
- 18. The Owner acknowledges that G. O. Services, LLC is a Delaware limited liability company in which Gilbane Building Company is the sole and managing member. Gilbane intends to utilize G.O. Services, LLC for all interim labor, all interim cleaning, and all final cleaning tasks, subject to appropriate procurement practices.
- 19. Labor rates for Trade Contractors to be audited and approved by the Owner prior to utilization in all changes. These submitted rates are fixed. Rates shall be revised as required and according to Collective Bargaining Agreements.

- 20. Substantial Completion shall be considered achieved with the issuance of the Temporary Certificate of Occupancy (TCO). If the TCO cannot be obtained through no fault of the Construction Manager, Substantial Completion shall not be withheld.
- 21. Gilbane has provided Interdisciplinary Coordination (IDC) Review Report 3/22/21 which addresses coordination and scope review issues. These reports have been forwarded to the Architect. Neither is intended as a substitute for engineering or architectural review by licensed design professionals. The comments contained in the reports represent observations and/or suggestions intended for consideration and possible incorporation into the design documents. Items not incorporated into the Contract Documents are excluded from the GMP. A final compliance check of the IDC report created 3/22/21 was completed on 5/12/22 against the documents dated 4/16/21 including Addendum 1, 2 & 3. No design liability has been assumed by Gilbane as result of the information contained in the reports.
- 22. Gilbane provided due diligence to maximize M/WBE participation. This GMP includes anticipated minority and women business enterprise percent participation of approximately 6.5% combined. It is noted the participation for "non-filed" subcontractors are approximately 6.5%. MBE is 3% and WBE is 3.5%. Gilbane will continue to work with the Owner to increase M/WBE participation.
- 23. Excludes night and weekend security. The only security provision included in the GMP is the perimeter site fence.
- 24. Benchmarks will be conducted at the first install of material for conformance to the contract requirements. All mockups called for in the Contract Documents will be in place benchmarks for quality. Materials will be fabricated prior to in place benchmarks or mockups, in accordance with approved submittals. Any design changes will be a change to the contract.
- 25. The project is seeking LEED V4 (or V4.1) Certification. Compliance with LEED V4 (or V4.1) will be determined by material vendors /manufacturers of specified materials who can comply at the time of material purchase. Cost associated with the credits noted as tracked by contractor have been included in the GMP. However, please note that Gilbane and the Trade Contractors will only be able to provide documentation for products and materials that meet the Specifications and available from these suppliers and manufacturers. It is the responsibility of the Designer/Architect to coordinate and verify that the Specifications will be able to provide the required compliance for certification. Gilbane staff will provide documentation to the Architect LEED Consultant for their submission of documentation to USGBC. All registration and certification fees associated with LEED are excluded. Substantial Completion and final payments are not contingent on the LEED certification process.
- 26. Professional photography for construction progress and completion is excluded.
- 27. Warranty period will commence upon sign off on the AIA certificate of Substantial Completion for the Building phase and Field phase.
- Includes Subcontractor Default Insurance on the Trade Contractors. Subcontractor Default Insurance (SDI)
   1.2% rate is applied to the sum of the Subcontractor Costs. Filed sub bid Trade Contractors have included bond costs in their contracts.
- 29. The GMP includes the Contractor Controlled Insurance Program (CCIP) which is calculated based on the total Contract Value. See Exhibit K for additional information on CCIP.

- 30. We have included the Builder's Risk insurance. Deductibles for Builders Risk will be funded by Subcontractors if they are responsible for the claim. If responsibility is unassignable, the deductible will be reimbursed through Construction Manager's Contingency, however if loss is due to Act of God (Flood, Earthquake, Named Storm, Tornado, etc) the deductible will be reimbursed through Change Order. Fault will be defined by the insurance company. Assumes transfer of insurance by 9/1/23 upon receipt of Building TCO.
- 31. Excludes all blocking for (unless shown on Contract Documents) FF & E. Owner to provide protection, trash removal and dumpsters for debris resultant from the FF & E.
- 32. All moving, relocation, and final connection to building utilities of existing Owner or user group possessions and equipment are by the Owner. Standby trades including elevator operators for Owner FF & E deliveries or move-ins are excluded.
- 33. Independent 3rd party testing, inspection and Commissioning costs are paid by the Owner. Support is provided by the relevant Trade Contractor with appropriate oversight and coordination by Gilbane.

## <mark>34. Not used</mark>

- 35. Utility Consumption Costs: The Owner will provide all building utility services at the time of Substantial Completion.
- 36. Excludes all utility company charges associated with connecting permanent utilities.
- 37. GMP includes owner allowance for temporary elevator use prior to Elevator Certification.

### 38. Not Used

- 39. Fee is converted to a Lump Sum at time of GMP, and therefore will not be returned on unused Contingency or General Requirements. Fee will not be returned on net deductive changes. Unused Contingency funds will be returned to Owner as defined per Contract.
- 40. Final retainage may be released upon 100% completion of an individual Subcontractor's work including punch-list items, and all close-out documentation has been completed and submitted by the Subcontractor and approved by the Construction Manager. Separate requisitions will be submitted by requesting subcontractors.
- 41. Trade Allowance costs are reconciled by CM Contingency.
- 42. Owner Allowance costs are reconciled by Owner Change Order with applicable markups.
- 43. The GMP is based on the Draft Project Schedule, data date April 26, 2021 with a run date of May 19, 2021 with a Substantial Completion Date of August 16, 2023 and Abatement, Demolition and Sitework and Improvements completed by July 22, 2024, included in Exhibit H.

- 44. Includes costs for winter weather for the GMP schedule. Should the Schedule change, through no demonstrated fault of the contractor and new work be required during winter months, the premium costs will be a change to the contract.
- 45. Punchlist and Seasonal Commissioning may be performed after Substantial Completion.
- 46. The GMP excludes resource loaded schedule per Specification 013200 paragraph 1.3J.
- 47. The schedule is based on of the following assumptions:
  - Temporary power will be available from the utility company no later than July 30, 2021.
  - Temporary heat within the Buildings during winter of 2022/2023 may utilize the permanent boilers and supplemental rented heaters.
  - Subject to Authorities having jurisdiction the Owner may commence moving furniture prior to TCO.
  - Shared use of the Westbourne Terrace and Washington Street, as well as the adjacent Alley (between the site and retail merchants located at 1632 Beacon Street) for construction activities and access to the site.
  - The schedule is based on Normal working hours M-F to achieve Substantial Completion.
  - Utility Co. to establish permanent power no later than November 15, 2022.
  - Fully executed Building Permit will be received before 6/15/21 construction start.
  - The schedule is based on receipt of NTP on/or about June 2, 2021.

# **Trade Specific Qualifications**

## **Demolition**

1. Foundations and slab elements are assumed to be free of asbestos waterproofing, Styrofoam and plastics.

## <u>Sitework</u>

- 2. This GMP excludes cleaning of existing drainage, structures, or utilities.
- 3. Unfreezing soils/frost removal and protection is excluded from this Bid Package and will be covered by Owner Allowance.
- 4. This GMP assumes all liquid asphalt will be purchased at \$495.00 per ton as stated in MASS DOT rates. Any cost increases or decreases shall be adjusted via Change Order.

### Cast-in-place Concrete

- 5. This GMP excludes concrete sealer at exterior locations.
- 6. Finish of walls at shear cores will be plug and patch, as accepted by project team during scope negotiations.
- 7. GMP excludes steel deck shoring, as none has been identified.

### **Structural Steel**

8. Supermetal's structural steel price is valid until Wednesday June 2, 2021.

### <u>Millwork</u>

9. The millwork installation will not be installed within the environmental standards noted in the specifications or AWI environmental standards.

### **General Trades**

10. The General Trades price includes removal of all vertical reveals in classrooms and hallways, as accepted by project team during scope negotiations. Maintains horizontal reveal at 30".

### **Theater Lighting**

11. This GMP includes 1 mobilization to make adjustments in field with AE.

### <u>HVAC</u>

12. All commissioning activities are to be performed by the Owner and their 3rd party Commissioning Agent. The Substantial Completion Date is based on the Commissioning Agent's ability to perform their work in accordance with the Project Schedule.

### **Food Services**

13. Final wipe down and cleaning of equipment is included. Final sanitizing is not included and is expected to be part of the Owners food service management company's scope of work.

- 14. Fire Protection scope of work will be performed for only what is defined on the Contract Documents. Any additional work necessary to bring the remaining building up to code or advised by an AHJ is excluded.
- 15. New water service identified to be connected to the existing water service at Westbourne Terrace assumes the existing service is sufficient and capable of delivering flows and supply to meet the design criteria.

# Plumbing

16. The GMP assumes the domestic water service for the building will be sufficient for connection of new work to, meets all applicable use and codes, and will be maintained by the Owner.

# <u>Sitework</u>

17. Site Improvements pricing included VE to furnish and install precast curb in lieu of cast in place curb, as accepted by project team during scope negotiations.

# Exhibit C

#### TRAVELERS CASUALTY AND SURETY COMPANY OF AMERICA BERKSHIRE HATHAWAY SPECIALTY INSURANCE COMPANY

February 20, 2020

Ms. Lynn Stapleton Leftfield 225 Franklin Street, 26<sup>th</sup> Floor Boston, MA 02110

Re: GILBANE BUILDING COMPANY RFP – Construction Management at Risk Services Michael Driscoll School Project, Brookline, MA Estimated Construction Cost: \$92,000,000 +/-

Dear Ms. Stapleton:

Travelers Casualty and Surety Company of America and Berkshire Hathaway Specialty Insurance Company (hereinafter 'cosurety') are privileged to act as the co-surety for Gilbane Building Company. As Gilbane Building Company's co-surety, we have always been impressed by our client's diverse capabilities, past project experience, track record of performance and depth of the company's professional staff.

Throughout their relationship, the co-surety has provided all of the surety bonds that Gilbane Building Company's clients have requested. With respect to Gilbane Building Company's current bonding requirements, please be advised that the co-surety is willing to support individual projects in excess of \$500,000,000 and corresponding backlogs approaching \$5,000,000,000. Subject to underwriting particulars expressed in the following paragraph, the co-surety will provide Gilbane Building Company with payment and performance bonds if selected by the Town of Brookline for the award of the above referenced project in the amount of one hundred and ten percent (110%) of the construction contract.

As is customary within the surety industry, the execution of any bonds would be subject to, but not necessarily limited to receipt and favorable review of all contract terms and conditions, bond forms, confirmation of project financing and all current underwriting information needed at the time of the request for bonds is made by Gilbane Building Company to the co-surety. Please understand that any arrangement for surety bonds is a matter strictly between Gilbane Building Company and its cosurety. As such, we assume no liability to you or any third party by the issuance of this letter.

Each of the surety companies are fully licensed and authorized to conduct surety business in the Commonwealth of Massachusetts and each are listed in the US Department of Treasury's listing of Approved Sureties (Department Circular 570). Each surety company has a Company Policyholder rating of "A++" (Superior) by A.M. Best Company with a financial Size Category "XV". Please feel free to contact this office should you have any questions regarding the bonding capacity or technical ability of Gilbane Building Company.

Sincerely,

Travelers Casualty and Surety Company of America Berkshire Hathaway Specialty Insurance Company

Travelers Casualty and Surety Company of America Travelers Casualty and Surety Company St. Paul Fire and Marine Insurance Company

#### POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"), and that the Companies do hereby make, constitute and appoint JEAN M FEENEY of BOSTON

Massachusetts , their true and lawful Attorney-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this 17th day of January 2019.

State of Connecticut

City of Hartford ss.

Bv Robert L. Raney, Senior Vice President

On this the 17th day of January. 2019, before me personally appeared Robert L. Raney, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surely Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the 30th day of June, 2021

Companies by himself as a duly authorized officer.

OTAR -118110 Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America. Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her, and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, Kevin E. Hughes, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company. do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 20th day of February , 2020

Kevin E. Hughes, Assistant Secretary

To verify the authenticity of this Power of Attorney, please call us at 1-800-421-3880. Please refer to the above-named Attorney-in-Fact and the details of the bond to which this Power of Attorney is attached.

**Project Schedule & Narrative** 

Report Date: 5.19.21 Schedule Data Date: 4.26.21

### I. Contract Milestones

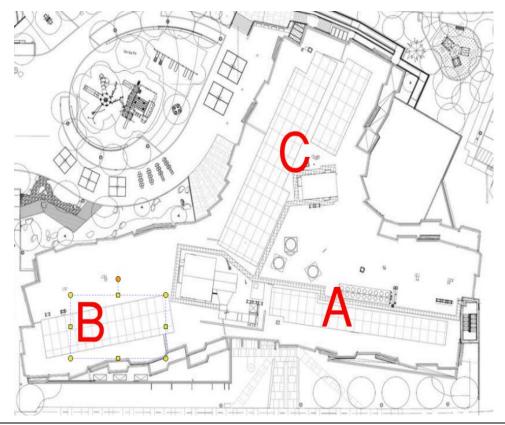

Contract Milestones	Target
New Building Certificate of Occupancy	8/16/23
New Building Substantial Completion	8/16/23
Demo & Final Sitework Substantial Completion	5/23/24
Project Completion	7/22/24

#### II. Project Delivery Approach

The Michael Driscoll School project consists of construction of a new building to occupancy, and demolition of the existing structure along with site improvements and the development of new play areas.

#### **Construction – Work Areas**

The building was broken down into Areas A-C. These areas cover the four levels which include: Classrooms, Offices, Gymnasium, Cafeteria, and Auditorium. These areas are the fundamental organization of the work breakdown structure (WBS).

**GMP** Schedule Narrative

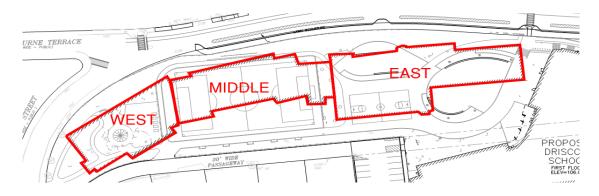

Report Date: 5.19.21 Schedule Data Date: 4.26.21

### **Demolition – Work Areas**

The current building will be broken down into East, Middle and West work areas.

### **Construction – Execution Approach**

The plan is to start work with early site work performing clearing and establishing temporary play areas. Flowing into sitework/ excavation, installing geo piers and piles, installing a new drain line, and some remaining excavation for foundations.

The starting sequence of workflow for foundations will be A, C, B and finishing C, A, B. Steel erection will be C, A, B following their respective foundation finish sequence.

The envelope of the building will follow the same C, A, B sequence after the prerequisite steel erection/ detailing for each area. Roof work will also follow the same C, A, B sequence and will start in each respective area once exterior framing for that area is complete.

Interior work will start in C with A and B started following their respective slab on deck sequences.

Site improvement will begin shortly after interior construction. The overall sequence is as follows:

ctivity ID	Activity Name	Orig Dur	temaining Duration		Finish
DRISCOL	LSCHOOL				
SUMMAR	Y/MILESTONES				
Building C	onstruction				
SU-1050	Start Full Construction	0	0	14-Jun-21	
SU-1060	Sitework	157	157	14-Jun-21	27-Jan-22
SU-1070	Foundations	169	169	23-Nov-21	25-Jul-22
SU-1100	Sitework Complete	0	0		27-Jan-22
SU-1090	Structural Steel	107	107	31-Mar-22	30-Aug-22
SU-1120	Foundation Complete	0	0		25-Jul-22
SU-1010	Interior Construction - Gym & Auditorium	205	205	26-Jul-22	16-May-23
SU-1110	Structural Steel Complete	0	0		30-Aug-22
SU-1390	Interior Construction	202	202	23-Sep-22	12-Jul-23
SU-1130	Building Tight - All Areas	0	0		12-Jan-23

Report Date: 5.19.21 Schedule Data Date: 4.26.21

### III. Critical Path

The critical activities are defined as any activity having a total float of 5 days or less. Total float is the amount of time an activity can be delayed without impacting the target certificate of occupancy date of August 16, 2023. Critical activities are graphically shown in red below.

\*\* See Addendum A

#### IV. Schedule Organization

The schedule reflects all activities necessary to achieve the project objectives from CM award date to project closeout.

#### Calendars

The schedule utilizes the following calendar:

- GBCO 5d Week w/ Holidays (DEFAULT GLOBAL CALENDAR)
  - This is a 5-day workweek with typical holidays.

#### Work Breakdown Structure (WBS)

The WBS is the basis of defining work packages and activities necessary to complete the project. The WBS covers all phases of the project which area:

- Preconstruction: this phase includes design, cost estimating, regulatory approval, MEP coordination and procurement.
- Construction: this phase is primarily organized by work type (sitework, foundations, steel etc.) and broken down further to building areas and floors.
- Turnover: this phase focuses on the inspections, substantial completion, and certificate of occupancy for the new building.
- Demolition & Final Sitework: this consists of three areas, East, Middle and West.
- Closeout includes start-up and commissioning, and closeout submittals

#### V. Schedule Maintenance

Upon execution of the schedule, it will become the project performance measurement baseline schedule. The schedule is updated monthly, and progress will be evaluated against the baseline. The typical schedule update reports are listed below:

- 1. Full Schedule with Float of 5 Days or Less.
- 2. Critical Path
- 3. Variance to GMP
- 4. Variance to Prior Months Update
- 5. Schedule Narrative
- 6. Last Planner Reports

Report Date: 5.19.21 Schedule Data Date: 4.26.21

Construction Management & Logistics Plan

Michael Driscoll School Guaranteed Maximum Price 64 Westbourne Terrace Brookline, Massachusetts

Construction Management Plan Gilbane Building Company

April 14, 2021

#### 1. Introduction

**1.1** Project Description: The Project includes the construction of a Four story steel frame building with 1 level below grade to house mechanical space and an athletic suite. The building consists of a concrete foundation, four levels of steel and concrete construction with a masonry and storefront/metal panel facade. Construction is scheduled to begin in June 2021 and will be completed in July 2024. The Gilbane contact for this project is Robert Braga - Superintendent, contact information is as follows;

Office: NA Cell: (617) 212-3482 Email: rbraga@gilbaneco.com

**1.2** General Information: The development of this site will require earth retention on all four sides of the site. The earth retention will be on the property and abandoned in place after work is complete per the zoning board requirements. The project may also require the underpinning of two adjacent buildings. See attached SOE.

#### 2. Construction Methodology

**2.1** Construction Activity Schedule: The Town of Brookline typically allows construction work from 7:00 A.M. to 7:00 P.M., Monday through Friday. Weekend work hours are 8:30am to 5:00 pm. This project site is located in a predominantly residential neighborhood, these times will be strictly enforced.

2.2 Demolition: The demolition scope will include the complete removal of the existing building structure. The demolition debris will be disposed of at a properly licensed solid waste disposal facility. All trucks carrying demolition debris will be covered when leaving the site. During demolition, provisions will be made for the use of water spray to control the generation of dust, as well as street sweeping.

**2.3** Construction Staging Areas: The proposed staging plans will be designed to isolate construction activities while maintaining safe access for pedestrians and vehicles during normal day-to-day activities and emergencies. The initial site mobilization will include installation of a 6-foot-high chain-link fence w/ a debris scrim to isolate the construction area. The primary construction gates will be located along Washington Street. Our logistics plan proposes (2) - 30' sliding gates on Washington St to enter and exit the site. Water-filled Jersey barrier will be installed 5' from site fence to create temporary 5' wide pedestrian walkway, this will be closed while construction activities are being performed, sidewalk will open at close of construction work-day, approximately 4:30PM. During the construction of this project on an as needed basis a Brookline Police Detail may be required at Washington St. and/or Westbourne Terrace. (Refer to "Insert C" on Page 7) There will also be a 30' sliding gate at Westbourne Terrace. All staging will occur within the area bordered by the project fence. The site fence will provide safe access for bicycle and automobile traffic adjacent to the Project. During working hours pedestrian routing plan (shown drawing sheet 7) on Washington St is reflected by use of the crosswalk at Salisbury Rd to the opposite side of Washington St, then crossing back over at Beacon St. – This is only during construction

working hours. This sidewalk closure will be for the duration of the project during project working hours from 6:30AM to 4:30PM Monday through Friday (approx. 24 months), and some Saturday's if construction is planned. At 4:30PM the designated 5' wide pedestrian walkway will be opened in-front of the Construction site on Washington street. The bike lane will default to shared travel lane on Washington Street. Temporary asphalt ramps will provide a transition from the street to pedestrian walkway at either end. The sidewalk on Westbourne St will include a partial covered walkway where the new building is closest to the sidewalk. Temporary Sidewalk closures will be requested if necessary. All construction activity will be kept within the designated areas approved by the CMP.

2.4 Signage: There will be directional signage required as our operations will impact adjacent walkways and vehicular traffic. Sidewalks and Streets will be impacted as outlined in the attached logistics plan. Permitting for the sidewalk work will be in place prior to the erection of the site fence.

Flashing Beacons to be installed at Crosswalk on Westbourne Terrace. Flashing Beacons to be installed at Crosswalk located at Salisbury Road and Washington St. "Sidewalk Closed" MUTCD R9-9 signage to be installed as per attached drawing sheets 4 & 6. Pedestrian signage including flashing crosswalk beacons, speed limit, school zone, etc. will be installed prior to construction, as per Brookline approved standard.

- 2.5 Roadway Cleaning: Street sweeping and sidewalk sweeping will be performed daily to keep truck debris from being tracked over roadways. As Construction vehicles are exiting the site, they are required to use designated wheel wash stations.
- 2.6 Existing Tannery Brook Drain Line (20 x 30) Demolition: This line will remain active until Support of excavation and building foundation at "Building C" have been installed. DMH 2, 3, 4 & 5 and 36" Drain Line will be installed and connected prior to demolition of 20 x 30 Tanner Brook line. SE Corner of Existing school Gym assumes Bottom of footing 102'-6". No underpinning will be required at this location, Sheets will be installed prior to footing and drain line.

3. Perimeter Protection/Public Safety

**3.1** Contractor Obligations: Gilbane will work to ensure the staging areas minimize impact to pedestrian and vehicular flow. Secure fencing and barricades will be used to isolate construction areas from pedestrian traffic around the site. Where appropriate, police details will be provided to facilitate traffic flow and pedestrian safety at the request of the Director of Engineering &Transportation or Police Department. Construction procedures will be designed to meet all OSHA safety standards.

**3.2** Temp Covered Walkway: A temporary 5' covered walkway will be installed adjacent to the New Building at Bartlett Crescent Street also referred to as Teacher Parking Lot. This temp covered walkway will be removed at completion of project. A Temporary covered walkway will be installed on Westbourne Terrace at the sidewalk closest to new building to allow for pedestrian travel during construction.

#### 4. Material Handling

**4.1** Construction Waste: Gilbane will take an active role with regard to the reprocessing and recycling of construction waste. The disposal contract will include specification requirements that will ensure that construction procedures allow for the necessary segregation, reprocessing, reuse, and recycling of materials. For those materials that cannot be recycled, solid waste will be transported in covered trucks to an approved solid waste facility, per the Department of Environmental Protection (DEP) Regulations for Solid Waste Facilities, 310 CMR 16.00. This requirement will be specified in the disposal contract as well as for the general construction debris generated by this project during ALL phases of construction.

#### 5. Construction Traffic Impacts

**5.1** Worker Parking: Because the construction workers will typically arrive prior to peak traffic periods, construction trips are not expected to adversely affect traffic conditions. All trades will be directed to park at long

term parking meters along Beacon Street.

Personnel will arrive at the job site either by public transportation or by personal vehicles. No personal vehicles will be allowed to park at the project construction site. Any parking requirements will be met offsite utilizing long term parking meters along Beacon Street, and other on-street parking options while complying with the Town parking regulations.

The Contractor will encourage the use of public transportation and restrict parking as part of each of its subcontracts. This is typical on projects within densely populated areas. Workers will be encouraged to carpool with co-workers or to utilize the numerous public transportation options available in this part of Brookline.

Construction workers are not allowed to park on residential side streets in the Town and are not eligible for temporary parking permits.

**5.2** Truck Routes: Truck routes will include the use of Washington Street and Westbourne Terrace. Washington Street will have 2 gates (in and out) of the site. Westbourne Terrace will have 1 gate (entrance / exit). Truck routing will be encouraged to travel along major roads and highways to alleviate traffic on neighborhood streets. Refer to Drawing Sheet 18. Trucking turning into the site on Washington street are Right Turn only. Trucks exiting the site onto Washington St are Right Turn only. Trucks entering and exiting the site at Westbourne Terrace gate are Left Turn Only.

**5.3** Off-Site Staging: At no time will Town streets be used for crane placement, staging of trucks, and/or offloading of trucks without separate permit application and approval. Where construction activities do not allow for immediate access from Washington Street into the construction zone, trucks will be staged off-site at a location to be designated by the Construction Manager and the Town Engineering and Transportation Division. Gilbane will directly coordinate, via a dedicated queuing operation, the off-site staging areas to ensure that a controlled and limited number of construction vehicles have access to the construction site at any one period in time. Off-site construction staging areas for the Project shall be limited to those specifically agreed upon by the Contractor and the Brookline Engineering and Transportation Division.

5.4 Temporary curb cuts: There will be 3 temporary curb cuts installed for access into the site, 1 located at each gate. These curb cuts will be removed once permanent sidewalk is installed. The Westbourne entrance into the alley at retail shops will be widened to allow for safe access of larger vehicles. See attached drawing sheet 3 for reference.

- 5.5 There will be 2 Parking spots available in front of the NGRID Vault on Washington street to allow for short term parking. 15 Minute Parking Signs as per drawing sheet 7.
- 5.6 Any town parking meters are to be removed by Town Highway Division staff, this work to be coordinated by Construction Manager.
- 6 Construction Air Quality

6.1 Contractor Obligations: Construction activities may generate fugitive dust, which will result in a localized increase in airborne particular levels. Fugitive dust emissions from construction activities will depend on such factors as the properties of the emitting surfaces (e.g. moisture content and volume of spills), meteorological variables, and construction practices employed. To reduce the emission of fugitive dust and to minimize impacts on the environment, the General Contractor will adhere to a number of strictly enforced mitigation measures, including the following:

- 6.1 Wetting agents will be used regularly to control and suppress dust that has the potential to become airborne by wind.
- 6.2 All trucks for transportation of construction debris will be fully covered.

- 6.3 Storage of construction debris will be within the fenced-in site and in strict coordination with abutters and their corresponding operations.
- 6.4 Construction practices will be monitored to ensure that unnecessary transfers and mechanical disturbances of loose materials are minimized and that any emissions of dust are negligible.
- 6.5 Streets and sidewalks will be cleaned regularly to minimize dust accumulations. If any contaminated soil is encountered during excavation, it will be temporarily stockpiled and covered on-site while arrangements are made for proper removal and disposal.
- 6.6 Dust monitoring will be implemented by sampling the air against baseline. Sampling will be gathered during preconstruction.

#### 7 Construction Noise

7.1 Contractor Obligations: Every reasonable effort will be made to minimize the noise impact of construction activities.

Mitigation measures will include:

- 7.1 Instituting a proactive program to ensure compliance with the Town of Brookline noise Limitation policy.
- 7.2 Maintain an "idle free" work zone of fossil fuel trucks and equipment by providing supplemental electrical hoisting and pumping equipment along with "just-in-time" delivery methods. On-site idling will be limited to 5 minutes.
- 7.3 Locating noisy equipment as far as possible from sensitive areas.
- 7.4 Identifying and maintaining truck routes that minimize traffic noise within the Project's neighborhood.
- 7.5 Mandating that certain equipment have the proper sound attenuation devices.
- 7.6 Scheduling equipment operations to keep average levels low, to synchronize noisiest operations with times of highest ambient levels, and to maintain relatively uniform noise levels.
- 7.7 Noise monitoring will be implemented to measure noise levels against the baseline. Sampling will be gathered during preconstruction.

#### 8 Other Construction Mitigation Measures

8.1 Rodent Control: A rodent extermination certificate will be filed with the building permit application to the Town. Rodent inspection monitoring and treatment will be carried out before, during, and at the completion of all construction work for the proposed Project, in compliance with the Town's requirements. Rodent extermination prior to work start-up will consist of treatment of areas throughout the Project site. During the construction process, regular service visits will be made.

These specifications will include all the following requirements:

- 8.2 The CM will conduct a thorough inspection of the site and provide an assessment of the site as it relates to pest control. A written assessment will be submitted listing pests present on the site, the extent of infestation, and if any activities in the area contribute to the potential pest problems. The report will also contain suggestions for remediation.
- 8.3 Within an agreed amount of time after conducting the initial inspection and assessment, the General Contractor will present a Pest Management Plan for approval.
- 8.4 The plan is to include details concerning:

Training for appropriate parties about the plan.

Frequency of technician visits and the activities they will perform.

A description of the pest-monitoring program.

The Project Team will review and renew the Pest Management Plan as conditions warrant.

- 8.5 The CM will provide Service Reports after each service visit, which should include a listing of the pesticides used and at what location, results of the monitoring, description of any conditions that may be contributing to the pest problems, and/or any other actions that may have been taken.
- 8.6 The CM will maintain construction and lay-down areas and their perimeters free of trash and garbage, and provide and enforce proper use of refuse containers to ensure rodents and other pests are not harbored or

attracted.

8.7 The CM will designate specific locations as lunch and coffee break areas to prevent random disposal of garbage and trash, and will keep those areas free of litter by providing the necessary number of heavy-duty refuse containers.

#### 9 Site Maintenance/Snow Removal

9.1 Contractor Obligations: Public sidewalk areas adjacent to the property will be cleared and kept free of snow, dust, and other debris on an as needed basis. The Contractor will remove snow from within the site fence to an offsite location or stockpiled within the construction fence limits.

#### <u>10.</u> <u>Miscellaneous Provisions</u>

**10.1** Sanitary Facilities: Workers will be provided with toilets to and hand wash stations to be serviced as required.

- **10.2** Modifications to the CMP: Any modifications to this plan will be coordinated with the Town Engineering and Transportation Division.
- 10.3 COVID 19 Protocols are to be followed as outlined per CDC (including the United States Centers for Disease Control and Prevention ("CDC") and the World Health Organization ("WHO")) Brookline and Massachusetts Health Department and GBCO Safety Plan. Trades should self-certify and take temperature prior to arriving at work, Maintain safe social distancing (6'-0" or more) while working, no congregating during lunch breaks, must wear appropriate face coverings at all times, frequent hand washing, stay home if ill or Temperature is above 100.4, daily check-in and certification upon entry into project. Enforcement Under the authority of the Town By-Law Article 10.3 Non- Criminal Disposition, the Town may fine the Contractor \$50.00 for each occurrence of any employee or subcontractor not adhering to these regulations.
- **10.4** During Voter Polling at the existing Michael Driscoll School- Two (2) temporary Handicapped Parking will be made available on Bartlett Crescent. See Drawing 7 clouded location. Temporary parking permits to be requested as needed.

#### **MEMORANDUM**

TO:	Lynda Callahan Gilbane Building Company Boston, MA 02210	FROM:	Stephen M. Boudreau, P.E Vanasse & Associates, Inc. 35 New England Business Center Drive, Suite 140 Andover, MA 01810
DATE:	November 20, 2020	RE:	8757
SUBJECT:	Michael Driscoll School - Con Pedestrian Detour Brookline, Massachusetts	struction Mana	agement Plan

This memorandum discusses the proposed pedestrian detour associated with the Construction Management Plan for the Michael Driscoll School in Brookline, Massachusetts. The pedestrian detour is intended to provide a safe path for pedestrians, especially students, to and from the school along Washington Street between Beacon Street and the school driveway. Please refer to Sheet 7 and 8 of the Construction Management Plan dated December 2020 for the pedestrian detour.

Construction site access is proposed on Washington Street via a 30-foot-wide entrance gate and a 30-footwide egress gate. With approximately 50 trucks entering and exiting the site per day on Washington Street, the pedestrian detour is designed to minimize conflict points between pedestrians and construction operations, and to maintain an accessible alternative route for the safety of the public and school students. During working hours (6:30 AM to 4:30 PM), the sidewalk will be closed on Washington Street along the school construction site. Pedestrians will use the crosswalk located at the intersection of Washington Street and the school driveway/Salisbury Road, travel along the sidewalk on the southeast side of Washington Street, and cross back across Washington Street at the intersection of Beacon Street. The school driveway crosswalk is unsignalized; however, a crossing guard will be stationed at this crossing during the hours of morning school drop-off and afternoon pick-up times. The crosswalk at Beacon Street is signalized with Accessible Pedestrian Signal (APS) equipment including push buttons and walk/don't walk indications to facilitate safe pedestrian crossing at this intersection. During non-working hours (4:30 PM to 6:30 AM), weekends, and holidays, pedestrian access will be maintained on the north side of Washington Street via the existing sidewalk or a temporary Americans with Disabilities Act (ADA) compliant pedestrian route. A police detail will be stationed at the Washington Street construction access gates, as required by the town.

The pedestrian detour minimizes the redirection of pedestrian travel utilizing existing, ADA compliant pedestrian facilities while maintaining full access in close proximity to businesses in the area. The existing pedestrian facilities can adequately support the change in pedestrian traffic patterns (for peak hour pedestrian volumes, see Figure 4 in the Transportation Impact Assessment prepared by Vanasse & Associates, Inc., dated December of 2018). It is our recommendation that closing the sidewalk adjacent to the construction site on Washington Street during working hours is the safest alternative, will minimize conflicts between pedestrians and construction operations and will maintain an accessible alternative route for the safety of the public and school students.

If you have any questions or require additional information, please do not hesitate to call me at 978-474-8800.

CONTRACTOR SHALL MAINTAIN EMERGENCY PASSAGE AT ALL TIMES TO BUILDINGS WITHIN THE PROJECT LIMITS. CONTRACTOR SHALL MAINTAIN 24-HOUR EMERGENCY VEHICLE ACCESS TO AND THROUGH CONSTRUCTION AREAS.

SAFETY SIGNS PROPOSED FOR LOCATIONS OTHER THAN ERECTED ON TEMPORARY BARRICADES MAY BE ERECTED ON EXISTING LIGHTPOLES, SIGNPOSTS, AND OTHER EXISTING FEATURES AS APPROVED BY THE TOWN.

LOCATIONS OF SIGNS SHOWN ARE APPROXIMATE. EXACT LOCATIONS SHALL BE DETERMINED BY THE CONTRACTOR IN THE FIELD. THE CONTRACTOR SHALL ENSURE THAT SIGNS ARE PLACED SO MAXIMUM VISIBILITY IS OBTAINED.

EXISTING SIGNAGE WHICH CONFLICTS WITH PROPOSED SIGNING SHALL BE REMOVED AND STACKED OR COVERED AS DETERMINED BY THE TOWN. IF NECESSARY, AT THE END OF CONSTRUCTION THE CONTRACTOR SHALL RESTORE THE SIGNAGE TO ORIGINAL

THE BROOKLINE POLICE, FIRE, AND TRANSPORTATION DEPARTMENTS SHALL BE ADVISED OF THE SCHEDULE OF CONSTRUCTION AS WELL AS OF ANY DETOURS OR ALTERNATE ROUTES.

THE CONTRACTOR SHALL NOT REMOVE PARKING METER HEADS AND SHALL COORDINATE WITH THE TOWN OF BROOKLINE FOR THEIR REMOVAL

WHERE AN EXISTING UTILITY IS FOUND TO CONFLICT WITH THE PROPOSED WORK, THE LOCATION, ELEVATION, AND SIZE OF THE UTILITY SHALL BE ACCURATELY DETERMINED WITHOUT DELAY BY THE CONTRACTOR AND THE INFORMATION FURNISHED TO THE TOWN FOR RESOLUTION OF THE CONFLICT.

THE CONTRACTOR SHALL MAKE ALL ARRANGEMENTS FOR THE ALTERATION AND ADJUSTMENT OF ELECTRIC. TELEPHONE. AND ANY OTHER PRIVATE UTILITIES BY THE UTILITY COMPANIES AT NO ADDITIONAL COST TO THE TOWN. IF THE CONTRACTOR ADJUSTS UTILITY COVERS IT SHALL BE DEEMED PART OF THE WORK AND THERE WILL BE NO ADDITIONAL COMPENSATION.

ALL UTILITY COMPANIES, PUBLIC AND PRIVATE, MUST BE NOTIFIED, INCLUDING THOSE IN CONTROL OF UTILITIES NOT SHOWN ON THIS PLAN, (SEE CHAPTER 370, ACTS OF 1963, MASSACHUSETTS) PRIOR TO EXCAVATING, BLASTING, INSTALLING, BACKFILLING GRADING, PAVEMENT RESTORATION, OR REPAVING.

THE ACCURACY AND COMPLETENESS OF UNDERGROUND UTILITIES ARE NOT GUARANTEED. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE EXACT LOCATION, SIZE, TYPE ETC. OF ALL UNDERGROUND UTILITIES THAT MAY BE AFFECTED BY THE WORK. AT LEAST 72 HOURS BEFORE DIGGING BEGINS, THE CONTRACTOR IS REQUIRED TO CALL DIG SAFE AT (888)344-7233. ALL TOWN OWNED UTILITY STRUCTURES WITHIN AREAS AFFECTED BY THE WORK shall be adjusted to new line and grade as directed by the engineer. Any utility POLES AND/OR GUY POLES WITHIN AREAS AFFECTED BY THE WORK SHALL BE REMOVED AND RESET BY THE RESPECTIVE UTILITY COMPANY. ALTERATIONS TO UTILITIES NOT OWNED BY THE TOWN SHALL BE MADE BY THE RESPECTIVE UTILITY OWNERS.

IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO PROVIDE SHOP DRAWINGS FOR CONSTRUCTION MANAGEMENT EFFORTS OUTSIDE OF THE SITE PLANS AND TO COMPLY WITH CONDITIONS OUTLINED WITHIN THE PLANS AND SPECIFICATIONS USING APPROVED METHODS.

AREAS OUTSIDE THE LIMITS OF PROPOSED WORK DISTURBED BY THE CONTRACTOR'S OPERATIONS, INCLUDING STAGING AREAS, SHALL BE RESTORED BY THE CONTRACTOR TO THEIR

### ORIGINAL CONDITION AT THE CONTRACTOR'S EXPENSE.

- 21. MAY BE PERFORMED BY OTHERS.
- RIGHT OF WAY.

**Michael Driscoll School** 

#### Exhibit K

**Contractor Controlled Insurance Program & Subcontractor Default Insurance** 

Michael Driscoll School Guaranteed Maximum Price

#### Ex. "A.1" to Construction Manager and Owner Agreement Contractor Controlled Insurance Program Requirements and Subcontractor Default Insurance Requirements

**1. Overview:** Gilbane Building Company (hereinafter "Construction Manager" or "Gilbane") has arranged with Alliant Insurance Services, Inc., (the "CCIP Administrator") for this Project to be insured under its Contractor Controlled Insurance Program ("CCIP"). The CCIP is more fully described in the Insurance Manual for the Michael Driscoll Elementary School project Project Contractor Controlled Insurance Program (the "Insurance Manual") that is incorporated in this Exhibit "**A.1**" and the Contract Documents by this reference.

2. Enrolled Parties and Their Insurance Obligations: CCIP Coverages shall cover Enrolled Parties. Enrolled parties are: Construction Manager; eligible Trade Contractors and their Sub-Trade Contractors of any tier who are enrolled in the CCIP, and such other persons or entities as the Contractor in its sole discretion may designate

**3. CCIP Insurance Policies Establish CCIP Coverages:** The CCIP Coverages and exclusions summarized in this Exhibit "A.1" and the other Contract Documents are set forth in full in their respective insurance policy forms. The summary descriptions of the CCIP Coverages in this Exhibit "A.1" or the Insurance Manual are not intended to be complete or to alter or amend any provision of the actual CCIP Coverages. In the event any provision of this Exhibit "A.1", the Insurance Manual, the Contract Documents, or the summary below conflicts with the CCIP insurance policies, the provisions of the actual CCIP insurance policies shall govern. Notwithstanding the forgoing, the Construction Manager warrants and represents that neither this Exhibit "A.1", the Insurance Manual nor the Contract Documents misrepresent the policies, exclusions and coverages of the CCIP insurance policies.

#### Summary of CCIP Coverages

#### Workers' Compensation and Employer's Liability

**Carrier:** American Zurich Insurance Company **Coverage:** Statutory limits required by the Workers' Compensation laws of the applicable jurisdiction, excluding monopolistic states, with Employer's Liability.

Part One - Workers' Compensation: Statutory Limit

Part Two -Employer's Liability:	Annual Limits Per Enrolled Party
Bodily Injury by Accident, each accident	\$ 1,000,000
Bodily Injury by Disease, each employee	\$ 1,000,000
Bodily Injury by Disease, policy limit	\$ 1,000,000

• This policy does **not** cover off-site operations.

#### **Commercial General Liability**

**Carrier:** Zurich American Insurance Company **Coverage:** Third Party Bodily Injury and Property Damage Liability.

Limits of Liability

#### Ex. "A.1" to Construction Manager and Owner Agreement Contractor Controlled Insurance Program Requirements and Subcontractor Default Insurance Requirements

	Shared by All Enrolled Parties
Bodily Injury & Property Damage	\$ 2,000,000 Each Occurrence
Personal/Advertising Injury	\$ 2,000,000 Each Occurrence
General Aggregate	\$ 4,000,000 (Per Project)
Medical Expense	\$ 10,000
Fire Damage Legal	\$ 300,000
Products/Completed Operations Aggregate	\$ 4,000,000

- This insurance will NOT provide coverage for products liability to any insured party, vendor, supplier, off-site fabricator, material dealer or other party for any product manufactured, assembled or otherwise worked upon away from the Project Site.
- This policy does not cover operations away from the project site.
- All Aggregate Limits will reinstate annually except Products/Completed Operations (see below).
- Products & Completed Operations Extension for 10 years or through the statute of repose, whichever is less, beyond final acceptance of the entire Project with a single non-reinstated aggregate limit.
- The policy contains exclusions. Some of these exclusions are: Real & Personal Property in the care, custody or control of the insured; Asbestos; Discrimination & Wrongful Termination; Architects & Engineers Errors & Omissions; Owned & Non-owned Aircraft, Watercraft, and Automobile Liability; Nuclear Broad Form Liability, Pollution except hostile fire.

#### Excess Liability

**Carriers:** Starr Indemnity and Liability Company, Berkshire Hathaway Specialty Insurance Company, XL Insurance America, American Guarantee & Liability Insurance Company, North American Specialty Insurance Company. **Coverage**: Excess Third Party Bodily Injury and Property Damage Liability.

	<u>Limits of Liability</u>
Shared b	y All Enrolled Parties
Each Occurrence Limit	\$ 100,000,000
Products/Completed Operations Aggregate Per Project	\$ 100,000,000
Annual General Aggregate Limit Per Project	\$ 100,000,000

- Policies follow form of underlying Commercial General Liability and Employer's Liability policy wording (provisions, coverages, exclusions, etc.).
- This insurance will <u>NOT</u> provide coverage for products liability to any insured party, vendor, supplier, off-site fabricator, material dealer or other party for any product manufactured, assembled or otherwise worked upon away from the Project Site.
- These policies do **not** cover off-site operations of any Enrolled Party.

4. Construction Manager's Obligations: Construction Manager shall pay the costs of premiums for the CCIP Coverages. Construction Manager will receive or pay, as the case may be, all adjustments to such costs, whether by way of dividends, retroactive adjustments, return premiums, other moneys due, audits or otherwise. Construction Manager assumes no obligation to provide insurance other than that specified in this Exhibit "A.1" and the CCIP insurance policies. Construction Manager reserves the right at its option, without obligation to do so, to furnish other insurance

#### Ex. "A.1" to Construction Manager and Owner Agreement Contractor Controlled Insurance Program Requirements and Subcontractor Default Insurance Requirements

coverage of various types and limits provided that such coverage is not less than that specified in the Contract Documents.

**5. Conflicts:** In the event of a conflict, the provisions of this Exhibit "A.1" shall govern, then the provisions of the Contract and its other related Contract Documents, then the provisions of the Insurance Manual.

#### 6. Rates:

**Contractor Controlled Insurance Program:** Construction Manager will bill the CCIP at a rate of \$24.90 per 1,000 of total contract value between the Construction Manager and the Owner. All change orders will be billed at the same rate. Construction Manager will bill the Owner for insurance costs not covered through the CCIP for Pollution Liability, Professional Liability, Offsite General Liability, Automobile Liability, D&O and Employment Practices Liability at a rate of \$1.60 per 1,000 of total contract value between the Construction Manager and the Owner. These costs shall be referred to as Difference in Conditions ("DIC"). All change orders will be billed at the same rate. The Construction Manager may bill the CCIP and DIC at a combined rate of \$26.50 per 1,000 of total contract value between Construction Manager and the Owner. Rates shall not be subject to any audit provisions.

**Subcontractor Default Insurance:** Separately from the CCIP and DIC rates, the Construction Manager will utilize Subcontractor Default Insurance ("SDI") which will be billed at a rate of 1.2% of subcontract value. All change orders will be billed at the same rate. Construction Manager reserves the right to exclude any subcontractor from the SDI program due to not meeting the Construction Managers prequalification standards. Any subcontractor excluded from the program shall be required to provide a performance and payment bond, charged at the same rate of \$12.00 per \$1,000. All change orders will be billed at the same rate. Rates shall not be subject to any audit provisions. SDI will not be utilized or billed on Chapter 149a file-sub-bid Trade Contractors and instead the Construction Manager shall procure 100% Payment & Performance bonds from these Trade Contractors.

**7. Additional Insured:** Owner and all other contractually required entities shall be included as additional insureds under the General Liability and Excess Liability Coverages within the CCIP.

8. Waiver of Subrogation: Where permitted by law, Construction Manager and Owner waive, as against each other, all rights of recovery by subrogation for any and all claims, demands, losses, or liabilities covered under the CCIP coverage provided. This waiver of subrogation shall be effective as to any individual or entity even if such individual or entity (a) would otherwise have a duty of indemnification, contractual or otherwise, (b) did not pay the insurance premium directly or indirectly, and (c) whether or not such individual or entity has an insurable interest in the property damaged.
