

The School Department would like to request authorization for two new revolving funds:

Establishment of Revolving Fund for Academic Testing

The fund will allow the Brookline High School Guidance Department to deposit and expend from a fund on the town's books and provide the ability to generate purchase orders. Funds are collected for PSAT and ACT. The funds are used to pay proctors and to purchase instructional materials.

Establishment of Revolving Fund for China Exchange Program

The fund will allow Brookline High School to deposit and expend from a fund on the town's books and provide the ability to generate purchase orders. Funds are currently received and expended through the BHS student activity account. In addition, the high school operating budget funds FTEs for the program and expenses associated with the exchange students visiting Brookline.

Motion: School Committee authorizes the creation of the above listed revolving funds.
