Additional Feedback

Individual email messages

- ▶ There are many things that SROs do in our schools that are not highlighted in the questions, which focuses mostly on breaking up fights, bullying. etc.
- ▶ One of the best uses of the SROs has always been in our Health and Wellness classes.
- ▶ Students see SRO's during morning arrival time as friendly, helpful faces.
- ▶ If we take away this opportunity for kids and police to meet and chat in the unpressured, safe, familiar setting of school, we take away a lot.
- ▶ Would love for us to think about what's working well and what's not working well and build from there

Paraphrased statements from individual emails

Takeaways

Limitations:

- ▷ Time
- ▷ Multiple choice items
- ▷ Low response rates

Keeping these limitations in mind:

- ▶ Differences in how students and staff respond to similar items
 - ▷ Differences in how students of different grade spans and backgrounds respond to the same items
- ▶ Anecdotal feedback of SRO program was positive
