Total	6890	7886	-996

Notes:

- Decrease of 996 students (PK-SP) compared to forecasts for 2020-21
 - Largest decrease in grades K-2

How Cropper forecasts will be used:

- For budget purposes:
 - Will use the K and grade 1 Cropper forecasts by school
 - Will use cohort survival of grades 2-12 by school

Next Steps

Enrollment projections -- moving forward:

- ▷ Meeting with other districts to see how they are treating this year's enrollment (most are delaying until they have more information)
- ▷ Cropper & McKibben recommends we skip projections this year
- ▷ Pause
 - ▷ Until we have better Kindergarten enrollment numbers (March)
 - ▷ Until/if we have a better understanding of virus (infection rates with students in school, vaccine, etc.)
 - ▷ Until we have 2nd round of open enrollment for learning model change (February)
- ▷ Budget perspective: Use Cropper projections for 2020-21 for K and 1 students; roll over 2020-21 enrollment for grades 2-12.
