

I 1 f. High School Graduation Requirements

(Voted 11/17/86, #86--536; 2/26/91, #91-52; 4/26/01, #1-40; 12/18/25, #25-XX)

The mission of Brookline High School is to develop capable, confident, life-long learners who contribute to their community, participate thoughtfully in democracy, and succeed in a diverse and evolving global society.

In order to graduate from Brookline High, students must satisfy the Graduation Requirements described below. Students must also must meet the Competency Determination requirements found in Section *I 1 g* of the PSB Policy Manual.

Minimum Course Requirements

(22 total credits, including the following 19 required credits)

English: (4 credits) *	four years (some students will achieve some of these credits by studying English as a Second Language)
Foreign Language: (2 credits)	two years in one language
Mathematics: (3 credits)	three years
Science: (3 credits)	three years
Social Studies: (3 credits)	three years (World History I and II, US History*)
Career and Technology Education, Community Service, Performing Arts, and Visual Arts: (3 credits)	three years distributed across at least three of these program areas
Health and Fitness: (1 credit) *	Health and Fitness must be taken each year

The Achievement of the Technology Competencies, as defined by the BHS Technology Oversight Committee and approved by the School Committee.

*** These course requirements are mandated by the State and cannot be modified.**

Exceptions:

We have a responsibility to provide for every student a challenging program which must reflect the particular strengths and weaknesses of the student. Alternative programs and/or some modification of the Graduation Requirements should be available. The alternatives below offer reasonable flexibility to satisfy Graduation Requirements and enable all students to experience academic

success. In appropriate circumstances, the student's administrator may recommend a modification to the Graduation Requirements for approval by the Head of School and Superintendent of Schools.

1. A "pathway" of three progressively advanced credits in either Performing Arts, Visual Arts, or Career and Technology Education may substitute for:

a) the distribution requirement in electives

or

b) two credits in Foreign Language, Mathematics, Science, or Social Studies, except that only one credit may be substituted in any of the four disciplines cited above.

2. Students enrolled in Learning Skills may substitute two Learning Skills credit for two credits in Foreign Language, Mathematics, Science, or Social Studies, except that only one credit may be substituted in any of the four disciplines cited above. This exception may not be combined with 1 (b). However, students in Learning Skills are eligible for the "pathway" exception in 1 (a).

3. A "Waiver of Graduation Requirements" may also be recommended, in writing, by the Head of School for approval by the Superintendent of Schools. A waiver may be recommended for students who, because of extraordinary circumstances, have not satisfied all of the Graduation Requirements but, in the considered view of the Head of School, have achieved the learning expectations of The High School.

These Graduation Requirements become effective for the class entering Brookline High in September, 2001, and graduating in June, 2005.

I 1 g. Competency Determination (New Policy)

(Voted 12/18/25, #25-XX)

Replaced MCAS Related Graduation Document Policy (5/22/03, #03-61)

COMPETENCY DETERMINATION

One of the requirements for graduation in Massachusetts is a determination of competency in subjects previously covered by the MCAS. In addition to other requirements for graduation, students must have been determined by the district to have achieved mastery of the common core of skills, competency, and knowledge in said areas, and satisfactorily have completed coursework that has been certified by the student's district as showing mastery of the skills, competencies, and knowledge contained in the state academic standards and curriculum frameworks.

Competency Determination Requirements

A determination of competency shall include:

Demonstrating mastery of skills in English Language Arts, Mathematics, and Science; and the satisfactory completion of relevant coursework aligned to the standards measured by the high school English language arts, mathematics, and science MCAS assessments administered in 2023. An additional requirement for mastery in US History will apply to the graduating class of 2027, and beyond.

Per guidance from the Massachusetts Department of Elementary and Secondary Education (DESE), to show mastery, a student must successfully complete, in accordance with the district's grading policy or by any other appropriate methodology as may be determined by the School Committee:

1. The final assessment for a course; or
2. A capstone or portfolio project; or
3. An equivalent measure identified in the district's CD policy.

A student enrolled in the Public Schools of Brookline will be determined to have satisfactorily completed coursework and earned full credit in accordance with the district's grading policy and the requirements outlined below:

Content Area	Coursework Requirements	Notes
English Language Arts	The equivalent of two years of high school English language arts courses.	To satisfy this course requirement, the English Language Arts courses must be taken in grades 9-12.
Mathematics	The equivalent of one year of both Algebra I and Geometry courses, or the equivalent of one year of both Integrated Math I and Integrated Math II. Whether to follow an Algebra/Geometry or Integrated Math I/II course sequence is determined by the district, but the equivalent length of the courses must still be met.	Middle school math courses may be certified by the district as meeting the coursework requirement for the mathematics component of the CD. Districts must confirm that the course aligns to the high school Algebra I/Geometry/Integrated Math I/Integrated Math II standards as listed in the 2017

		Massachusetts Mathematics Curriculum Framework.
Science	The equivalent of one year of any one of the following disciplines: Biology, Physics, Chemistry, or Technology/Engineering.	To satisfy this course requirement, the science course must be taken in grades 9-12.
U.S. History (Beginning with the graduating class of 2027)	The equivalent of a one-year United States history course.	To satisfy this course requirement, the U.S. History course must be taken in grades 9-12.

Aligned Courses:

The Public Schools of Brookline offers courses in alignment with the state curriculum frameworks that meet the above requirements. Specific BHS Courses that meet these requirements are tagged in the Annual Course Catalog with the symbol ★.

Demonstration of Mastery:

A student will show mastery in English Language Arts, Mathematics, Science, and US History by successfully completing coursework certified by the District as reflecting the skills, competencies, and knowledge outlined in the Massachusetts academic standards and curriculum frameworks. In doing so, the student must earn full credit for the courses listed above, or by completing a subject matter portfolio aligned with the state frameworks and approved by the relevant department Curriculum Coordinator.

Additional Considerations

Students with Disabilities

The Public Schools of Brookline must both provide a Free and Appropriate Public Education to students with disabilities and must also determine that the student has met the competency determination and local graduation requirements prior to graduating that student. Students with disabilities who have been placed in out-of-district placements must meet the requirements of the competency determination policy of the placing school district. Discussion of the competency determination must be a part of the IEP Team's transition planning.

English Language Learners

The Public Schools of Brookline shall, on a case-by-case basis, determine the appropriate courses necessary for English Language Learners to both achieve language proficiency and meet the competency determination requirements.

Late-Enrolling Students

Students who enroll in a Massachusetts public high school after their ninth-grade year may be granted a determination of competency by the Public Schools of Brookline in one or more of the following ways:

- Transcript review by BHS Guidance Counselor and Registrar with approval by BHS Guidance Coordinator.
- Additional course requirements as determined by BHS Guidance Counselor and Registrar with final approval of program of study required by BHS Head of School or their designee.

Appeals Process:

Current students and/or parents/guardians may appeal the determination of competency in accordance with the following district procedures:

1. Contact the student's Administrator/Dean in writing.
2. The Dean will coordinate a review meeting with the BHS Head of School or their designee and relevant department coordinators to evaluate available evidence of mastery.
3. The BHS Head of School or their designee will issue a decision regarding whether the PSB competency Determination Requirements have been met. The decision will provide a full report of which credits satisfied the requirements and, if short, where credits are needed. In such instances, the report will also include a suggested route to attaining the necessary credits.

Those enrolled in the Public Schools of Brookline in the classes of 2003 through 2024 that did not earn a diploma may also appeal for a review of their standing toward CD. The district will continue outreach where possible to such students. Transcript review by Registrar and BHS Assistant Head of School to determine if credits earned match with CD guidelines in this policy.

1. Such appeals can be initiated by a written request to the BHS Head of School or their designee.
2. A panel comprised of the BHS Head of School or their designee, appropriate Department Curriculum Coordinator, and any additional relevant curriculum experts employed by the Public Schools of Brookline will review coursework, transcripts, or equivalent demonstrations of competency and their alignment to the DESE MA Curriculum Frameworks in ELA, Mathematics, Science and or United States History.
3. The BHS Head of School or their designee will issue a decision regarding whether the PSB competency Determination Requirements have been met. The decision will provide a full report of which credits satisfied the requirements and, if short, where credits are needed. In such instances, the report will also include a suggested route to attaining the necessary credits.
