2005 - 2017 growth is equivalent to combined 2005 enrollment of Driscoll, Heath, Lincoln, and Runkle

# Townwide Challenges

- **Historic and Ongoing Enrollment Growth** - Since 2005, we have absorbed the equivalent of three K-8 schools into our existing schools through expand in place. Every school is overcrowded and needs relief in some way.
- **Overdue Renovation and Updating of Facilities** – Driscoll and Pierce School need renovation to update facilities and address overcrowding. Driscoll has never completed a full renovation.
- **Core Facilities are Inadequate**– Core facilities in 7 of 8 K-8 schools (gyms, libraries, cafeterias, hallways) no longer have the capacity to handle the current student population.
- **Substandard Spaces** – at each school, we have substandard classrooms because they have been created out of offices, hallways, locker rooms, etc.
- **Temporary Rentals used for K-8 Classrooms** – Pierce and Baker Schools have a total of 6 classrooms that are in rented space
- **Early Education Programs** – currently 11 BEEP classrooms in rental space. With a new BEEP building 5 BEEP classrooms will remain in rental space. 5 more remain at Lynch Center.

# Driscoll-Specific Challenges

- Overdue HVAC replacement postponed
- Undersized Auditorium/Theater, Gymnasium, and Cafeteria
- Overcrowded Classrooms and Learning Spaces
- Outdoor play space inadequate and poorly organized
- Inadequate operational and custodial space (No Loading Dock)
- Field regularly not usable because of wet or muddy conditions
- Nursing area too small
- Lack of Community Space

# Children are Learning in Substandard Spaces

## A Sampling of the Substandard Spaces in Our Schools

- K-8 Schools are 16,000 to 27,000 square feet below Massachusetts School Building Authority (MSBA) guidelines
- Elementary and middle grades classrooms typically between 100 sq. ft. and 300 sq. ft. below MSBA guidelines
- Special education and resource room areas typically 25%-50% below guidelines for recommended size.
- Undersized cafeterias are 1,500 square feet below MSBA guidelines
- Gyms typically undersized by 2,000 square feet
- Classrooms and learning support areas created out of storage rooms that have no windows

# A Sampling of Substandard Spaces

- **Baker** –
  - ❖ Music room and two art rooms directly beneath the gym
  - ❖ Cafeteria is overcrowded
  - ❖ Gym is too small
  - ❖ Principal/Vice Principals sharing office space eliminating their ability to have confidential meetings with parents or about students.
  - ❖ Hallways are too crowded for students to walk through
- **Driscoll** -- 5 lunches, starting at 10:15 and going until 12:50.
- **Pierce** -- A second grade classroom is in a tunnel between two buildings; 200 students from the Pierce Historic Building need to walk through that classroom to get to lunch and specials every day.
- **Heath** -- Students must walk through an active Spanish class to get to French class.

# Townwide Solution

After the 6-month Alternative Site Study, which include more than 20 public meetings, the consideration of 20 initial options and 14 final options, six public listening sessions, public hearings, and the work of five town departments and HMFH Architects, the Select Board, School Committee, and Ad Hoc Subcommittee of the Advisory Committee voted on **June 13** to:

1. **Pierce** – reaffirmed School Committee decision to request partnership with Massachusetts School Building Authority to renovate Pierce
2. **Driscoll** – move renovation and expansion into a 4-section school into the Feasibility Design Phase
  - ❖ Prioritizes maintaining the existing amount of per student play space
3. **Baldwin School** – move a “2-section plus” school into the Feasibility Design Phase
  - ❖ Includes early education, RISE, and native language support classrooms

# Our Three-Pronged Approach

PUBLIC SCHOOLS of  
**BROOKLINE**

## **Baldwin School Expansion**

**+ 18 classrooms**

Addresses ongoing and future growth in South Brookline and Townwide. Provides additional capacity for two of our fastest growing programs (RISE and English Language Education) and re-balances special education demand at Runkle.

## **Driscoll Renovation and Expansion**

**+ 8 classrooms**

Updates and modernizes outdated facility with overdue renovation. Adds classroom capacity to school with highest growth since 2005 (67%), and reduces largest class sizes in the district

## **Pierce Renovation and Expansion**

**+ 4 classrooms**

Updates and modernizes outdated facility with overdue renovation. Adds classroom capacity to school with second highest growth since 2005 (57%) and further addresses growth in North Brookline. 4 classrooms moved out of rental space

# What impact will the Baldwin and Driscoll Projects have on our current schools?

PUBLIC SCHOOLS of  
**BROOKLINE**

- **Baker, Heath:** Reduces overcrowding and class sizes within the South Brookline population.
- **Runkle:** Frees up learning spaces through the creation of a second RISE program at Baldwin.
- **Pierce, Lincoln, or Lawrence:** Opens classrooms by developing another town-wide English Learner Education (ELE) program.
- **Helps to Address District-wide Issues** including:
  - Overcrowding
  - Students learning in sub-standard classrooms and learning centers
  - Reliance on rental space for K-8 and BEEP classrooms

# Benefits of Expanding Baldwin School

PUBLIC SCHOOLS of  
**BROOKLINE**

- Build a modern and expanded PK - 8 Elementary School to serve South Brookline
- 3 classrooms for a district-wide special education program (RISE)
- 3 classrooms for a district-wide English language learners program
- Community meeting and performing arts space
- Community access to gymnasium
- Refurbished school playground with improved accessibility

# Design Feasibility Phase

# What we have done since June

- **June 21 & 22:** Introduction to the Design Feasibility Phase presentation to Driscoll community members.
- **July - August** - Designer Selection Process; Committee of Seven selected Jonathan Levi Architects for Driscoll Building Project
- **September - October:** Jonathan Levi Architects met with PSB and Driscoll staff to discuss project goals, designs, and get staff input on vision and inadequacies.
- **Mid-September** - Initiated review of Baldwin School area traffic study and legal review of Baldwin School property
- **September 20:** Baldwin and Driscoll School Building Committee members appointed by the Select Board.
- **September 22:** Education Visioning Session with Driscoll community members to discuss project goals and design.

# What we have done since June

# Schematic Design Phase (December 2018 - February 2019)

**Primary Goals:** Complete all materials required for a debt exclusion vote

## **Program Verification**

- a. Verify detailed space needs for each program space
- b. Verify adjacencies
- c. Confirm how each component supports brookline's educational program

## **2. Existing Conditions**

- a. Provide complete geotechnical, hazmat and geo-environmental report
- b. Continue traffic analysis and town traffic/parking approvals process
- c. Building and accessibility code analyses

## **3. Design Refinement**

- a. Develop concept diagram into schematic architectural plans
- b. Develop building massing, elevations and views
- c. Technical system narratives for structural, mep, fire protection, it and security
- d. Sustainability and lifecycle cost narratives and analyses

## **4. Cost and Process Management**

- a. Separate architect and OPM detailed line item construction cost estimates
- b. Construction cost estimate reconciliation and value management
- c. Detailed project cost budget based on msba format with all hard and soft costs
- d. Selection of project delivery method
