

# BHS BUILDING PROJECT UPDATE

## DEMOLITION AND EXCAVATION BEGINS

### GREENOUGH SITE

- **Demotion of the Roberts Wing is slated to begin on the week of October 7.**
- Following demolition, excavation will begin in November 2019,

### CYPRESS SITE

- Demolition of 111 Cypress was completed in September 2019.
- Concrete foundations are slated to be installed starting the week of October 21,

### BROOKLINE HILLS MBTA STATION

- Documents required to begin construction were finalized with the MBTA in September 2019.
- Construction of the new building plaza will begin with the laying of underground utilities, starting the week of October 7.

## IMPORTANT CONSTRUCTION ADVISORY

Due to scope of construction, we anticipate greater noise disruption to students, families, staff, and community members on the following dates and hours:

- **Saturday, October 12 - Tree Removal at 111 Cypress Street (7:00 a.m. - 9:00 p.m.)**
- **Sunday, October 13 - Demolition of Greenough Building (7:00 a.m. - 9:00 p.m.)**

Affected neighbors will be informed of these disruptions by abutters mailing.

## FREQUENTLY ASKED QUESTIONS (FAQ)

### How will air quality be monitored in the neighborhood around the construction sites?

Skanska will implement strict controls over truck idling, deliveries, excavation, covering of stockpiles, screen netting on fencing, and wetting of excavated areas. We will use hand held and remote air quality monitors to continually assess the surrounding neighborhood regularly to ensure that dust, smells and noise do not have a negative environmental or health impact. The remote monitoring devices will send alarm signals automatically to Skanska staff of any potential air quality issues.

### How will traffic flow be affected?

Sidewalks will be closed and existing pedestrian pathways will be diverted. Construction deliveries will be scheduled for non-peak student arrival and discharge.
