

## Mirror Display onto Projector/Smartboard

1. Log into the computer
2. Connect laptop to the Smartboard using **VGA Adaptor/WHITE DONGLE. White dongle plugs into the thunderbolt port.**  
(Lightning Bolt icon on left side of laptop)
3. In the upper left of the desktop select the **BLACK APPLE** icon
4. Select **SYSTEM PREFERENCES**
5. Select **DISPLAY** (2nd Row)
6. A popup window will appear with 3 tabs (Display, Arrangement, and Color).
7. Select **ARRANGEMENT** and then look at the Lower left of the popup window. You should see a checkbox for Mirror Image. Make sure this is selected. If it is not, select **MIRROR IMAGE**.
8. You are done.
